### **DELTA Welcomes New Vice President for Joint Solutions**

**Alexandria, VA, 4/3/2017:** DELTA Resources, Inc. welcomes Vice President for Joint Solutions, Shawn Tallant, to the Corporate Leadership Team. Shawn joins DELTA as an accomplished innovator and solutions-provider with a 27-year career as a Naval Aviator. During his military career, CAPT Tallant commanded both surface and aviation commands, including Commanding Officer of Strike Fighter Squadron 192 (flying the FA/18 Hornet), Executive Officer of USS Dwight D. Eisenhower (CVN 69), and Commanding Officer of USS Nashville (LPD 13) during Operations Enduring Freedom and Iraqi Freedom. His final tour in the Navy was as the

Commander Naval Air Force (CNAF) CVN requirements officer where he helped design the US Navy's next generation aircraft carrier, USS Ford (CVN 78). After retirement from the military, Shawn excelled in leadership roles at Raytheon and most recently Gibbs and Cox, Inc. At Raytheon, he worked in Integrated Defense Systems (IDS) in business development and capture lead roles in the Seapower Capabilities business area. At Gibbs and Cox, Shawn was Vice President for Business Development & Strategy for six years, and was responsible for developing corporate strategic business plans while leading the execution of business growth activities within multiple government agencies and domestic and international commercial clients across the entire Gibbs & Cox global portfolio. While there, he also developed and executed leading major corporate captures, annual marketing reports, and maintained the corporate growth pipeline. Shawn's education background lies in his Bachelor of Science from the U.S. Naval Academy and a graduate degree (MSHRM) from Troy State University. He is also a graduate of both the U.S. Air Force Air War College and the Navy's rigorous Nuclear Power School and Nuclear Prototype Graduate level Engineering Programs.

Shawn's unique capabilities are particularly well-suited to DELTA to translate their outstanding technical qualifications in support of Navy customers to their joint customers, which will continue to help the company meet growth objectives.

**About:** DELTA Resources, Inc. is a woman-owned business, established in 2000 to provide support services to the Federal government and private sector. With 300+ employees and annual revenues exceeding \$50 million, the company has sustained growth in the delivery of Systems Engineering, Integration, and Test solutions to DoD clients. DELTA achieves its corporate objectives through a commitment to excellent customer service and employee development.

**Corporate Headquarters:** 3601 Eisenhower Ave. Suite 220 Alexandria, Virginia 22304
